MASTER OF ENGINEERING

www.engineering.ubc.ca/meng
- VANCOUVER CAMPUS
- OKANAGAN CAMPUS

The Master of Engineering is a course-based professional program designed for engineering graduates who wish to complement engineering courses with management knowledge. In addition to engineering courses, students can choose from a variety of courses such as entrepreneurship and technology management.

SPECIALIZATIONS IN MASTER OF ENGINEERING:
- Biomedical
- Chemical and Biological
- Civil
- Clean Energy
- Geological
- Electrical and Computer
- Materials
- Mechanical
- Mining

MASTER OF SOFTWARE SYSTEMS

www.icics.ubc.ca/mss
- VANCOUVER CAMPUS

Master of Software Systems students advance their skills in cutting-edge knowledge in software engineering while using a blend of theory and practice. The program emphasizes software system development and implementation by providing a background in modern network architecture, internet and web programming, real-time and distributed systems, security, modern programming languages and databases.
