STUDY IN ASIA

Are you a second-year Chemical engineering or Chemical & Biological engineering student interested in studying in Asia in January 2019?
UBC’s Coordinated International Experience (CIE) is an initiative offering UBC Faculty of Applied Science students a chance to study abroad, full time for a semester at a leading CIE partner institution in Asia, Australia, or Europe. Entry into the CIE program is competitive. To be eligible, Chemical- and Chemical and Biological Engineering (CHBE) students must be available to go abroad during their third-year, second term, have at least a 70% average in the most recent academic term of full time studies prior to application (and maintain a 70% average prior to your exchange departure), and be a full-time student in good academic standing. Students accepted by a CIE partner institution are eligible to receive a $1,000 award for travel support from the Faculty of Applied Science.

The following partner institution courses in Asia have been pre-approved to transfer credits to UBC CHBE. For additional courses outside of this list, please contact CIE to request approvals.

**Disclaimer:** These course options are projected offerings based on information from the previous year and are provided as a starting point to plan your course selections. Enrolment in these courses will be subject to availability at the partner institutions, so please review the latest pre-requisites and timetable information when building a study plan.

### UBC Course

- CHBE 457 Process Synthesis (3)
- Technical Elective (3)
- Technical Elective (3)
- Additional courses by approval

### Hong Kong University of Science and Technology Course

- ENG 3120 Process Design and Integration
- CENG 4630 Food Processing Technology
- CENG 4720 Environmental Impact Assessment &...

### Nanyang Technological University Course

- CH 2140 Chemical Eng. Unit Operations I
- CH 3102 Chemical Reaction Engineering
- CN 3132 Separation Processes
- CN 4122 Process Synthesis and Simulation

### National University of Singapore Course

- CH 2116 Chemical Kinetics and Reactor Design
- CN 3135 Process Safety, Health & Environment
- CN 4122 Process Synthesis and Simulation

**How to Apply**

Apply online: pdportal.apsc.ubc.ca
Deadline for CIE January 2019 applications:
**Thursday, January 18th, 2018 at 4:00pm** (First Round)
**Friday, May 4th, 2018 at 4:00pm** (Second Round; limited availability)
